Who Should Attend?

The *Advanced Deformity Visitation* is designed for experienced Orthopaedic and Neuro Spine Surgeons who have been in practice for at least 5 years, perform 50+ Scoliosis procedures annually, and have already attended an introductory training program on spinal deformity.

Program Overview:

This event offers a unique experience to visit a thought leader in spinal deformity surgery. A one-and-a-half day visitation to Dr. Harry Shufflebarger will include discussion-based presentations amongst a small group of participants. Dr. Shufflebarger encourages visitors to bring their own electronic cases with them for discussion. Day two of the program will include live surgical observation in the host surgeon's operating room.
